PPROFILE

I am a software engineering student, I have developed strong skills in SpringBoot, Angular, JavaScript and Symfony. Moreover, I gained a year of experience.

SKILLS

- **Framework**

Angular, SpringBoot, Symfony, .net Core

- **Languages**

JAVA, PHP, C, JavaScript, HTML, CSS

- **Databases**

MySql

- **Dev Tools**

Visual Studio Code, IntelliJ
IDE (PhpStorm),Eclipse, Git

- **Méthodologie SCRUM**

INTERNSHIPS

Web development intern and software tester,
Juil. 2023 – août 2023
Neopolis Development –El Mrezga,Gouvernorat Nabeul

- Development of a Selenium robot for the GeoProd frontend using Selenium in Python.

- création un tableau de bord de reporting.

- creating a link between the automation of interactions with the GeoProd interface and the presentation of the collected data in a user-friendly manner accessible via the dashboard.

- **Keywords** : Spring Boot · Angular · SQL · Selenium Python · Scrum . GitLab

Web development intern, juil. 2022 – août 2022
ZATEX StartUp – Ariana, Ariana ville

- Conception et développement d'un système de recommandation intelligent dans le domaine du e-commerce.

SOFT SKILLS

- Ability to work under pressure
- Teamwork
- Dance
- Music

EDUCATION

A software engineering student |
Ecole Sup Privée d'Ingénierie et de Technologies (Esprit) | 2021 - present

Scientific preparatory diploma |
Faculté des sciences de Sfax (FSS) | 2019 - 2021

Bachelor's degree |
Secondary school of Beni khiar Tunis, Tunisia |2015 - 2019

PROJECTS

E-Commerce web Application | 01/2023 - 06/2023

- Developed a web application that allows customers to buy products online using SpringBoot, Angular 15.

- Angular provides the front-end framework, enabling interactive and responsive user interfaces, while Spring Boot provides the back-end framework for handling business logic, data storage, and integration with other e-commerce systems. This combination provides a flexible and scalable platform for businesses to sell products online and manage the sales process.

- Used advanced functionalities to ensure progress towards the Sustainable Development Goals SDGs.

- **Key words:** Java, SpringBoot, Spring security, Angular, REST APIs, MySQL, TypeScript, Git, StarUML, Figma

Medical appointment app | 09/2022 - 12/2022

- A medical appointment app built with Symfony 5 , and JavaFX which is a desktop application designed to help patients schedule and manage appointments with healthcare providers.

- **Key words:** Php, Symfony, Java FX, Scene Builder, JavaScript, MySQL, Git

C programming Project (Smart Esprit) | 10/2021- 01/2022

- Smart Esprit is used to automate the management of the household and the restaurant for the management of Esprit also the collection of data through different types of sensors to display statistics or alerts.
